OBJECTIVE

Early-career Data Analyst aiming to apply data-driven insights to IT, finance, supply chain, sales, healthcare and marketing functions to support strategic decision-making.

EDUCATION

Bachelor of Computer Science (Data Analytics), Asia Pacific University March 2026
Relevant Coursework: Deep Learning, Business Analytics, Data Mining, Database Security, Data Management.

High School Certificate (A Levels), Forest Side SSS Girls November 2022
Mains : Economics, Accounting, Mathematics

School Certificate (O Levels), Forest Side SSS Girls November 2019
Aggregate : 15

EXPERIENCE

Data Analyst Intern Dec 2024 - Mar 2025
West Malayan Group *Kuala Lumpur, Malaysia*

- Cleaned and preprocessed operational and sales datasets using R, improving data accuracy and consistency for downstream analysis.
- Automated data consolidation by merging multiple Excel sheets using Python, reducing manual processing time by 30–40 %.
- Designed standardized Excel VBA templates to streamline cross-department data entry and reporting workflows.
- Analyzed sales and operational data to identify trends and patterns, supporting pricing, marketing, and business decisions.
- Developed Power BI dashboards and templates to enhance data visualization, enabling clearer performance tracking for management.
- Delivered data-driven insights that contributed to strategic planning and process optimization initiatives.

PROJECTS

Machine Learning-Based Water Quality Detection. Designed and implemented a real-time water quality classification and alert system that simulates live sensor data, applies machine learning for contamination prediction, and triggers automated alerts through an interactive Streamlit application.

EXTRA-CURRICULAR ACTIVITIES

- Bronze Award Winner for The Duke of Edinburgh's International Award
- Participated in Joget NextGen Hack 2024, developing data-driven solutions in a team environment.
- Project Manager for a university-level social media campaign promoting a student-built application aligned with SDG 2 (Zero Hunger), including speaker coordination, international NGO (The Lost Food Project) partnership and campaign execution.

SKILLS

Technical Skills	Python, SQL, R Programming Java, Rust, C++
Tools	Power BI, Excel VBA Macros, SAS Enterprise Miner, Tableau, Microsoft Office
Technical Skills	ETL Processes, Data Mining, Deep Learning, Data Storytelling
Soft Skills	Analytical Thinking, Communication, Attention to Detail, Time Management, Teamwork
Languages	French, English, Hindi, Urdu, Malay
